

CONNECTING TO OVERDRIVE

- Go to <http://www.grapevine.lib.tx.us>
- Click **Online Resources** on the left-hand side
- Click on **eBooks and Audiobooks**, then **Overdrive**
- You do not need to create an account. Once you find a book you want, it will ask you for your library, your library barcode number, and your PIN (the last four numbers of your home phone)

HOW TO SEARCH FOR BOOKS

- At the top right of the screen there is a search box and you can search for books by title or author.
- Directly below the search box is the Advance Search, click there to limit your search, as well as only show Available Titles.
- If the title has a gray book or headphone symbol, that means the title is checked out and you can place a hold. If the title has a **black or bold** book or headphone symbol, then it is available to borrow.
- If you decide to place a hold, you will be prompted to enter your email address. You will receive an email when the book is available. You will then have three days to download the book. If you do not download the book within 3 days, it will go to the next person, and you will have to place another hold on it.

CHECKING OUT AND DOWNLOADING BOOKS

- After clicking **Borrow**, you have the choice to read the book in your browser, or choose the format to download the book.
- If you have a Kindle, choose the Kindle format. Any other device choose the Adobe EPub format.
- You are allowed to check out 3 items (eBooks or audiobooks) at a time. It will let you know how many items you have checked out
- Click **Confirm Checkout** and then **Download**

Overdrive Devices

For most devices, you will need to start the process on your computer. Unless you have a tablet, Kindle Fire, or B&N Nook tablet, which you can access through the app.

BARNES AND NOBLE NOOK (not tablet)

- You will have to check out the book from a computer.
- To download the eBook, you will need the **Adobe Digital Editions** software. If you do not have the software installed, it will prompt you to install it. Once the software is installed, you will need to create an Adobe ID. The Adobe ID for your computer, and your Nook will need to match.
- If you already have the software, then the book will download automatically.
- Once the eBook is downloaded in Adobe Digital Editions, plug in the device to the computer.
- Click on the eBook cover, and drag and drop to the left hand side under Recently Read. You will have to unplug the Nook from the computer, and it will then show up under My Documents.

AMAZON KINDLE

- After you checkout the book, choose the **Kindle format**. This will take you directly to Amazon.com
- Sign in with your Amazon account. Choose the device in which you want the book to download.
- Once you click on **Library Book**, it will automatically download to through Amazon's wireless. If you need to download it from your computer, click on **Download Now**, plug in your Kindle to your computer through the USB cable. Save the file onto your computer, then transfer it to your Kindle (usually an E or F Drive).
- You can also download the Overdrive app from your Amazon app store. If you use the app, make sure that you download the Adobe EPUB format of the book, not the Kindle format.

USING OVERDRIVE ON A MOBILE DEVICE OR TABLET

- You can download the Overdrive Media Console App from Android or Apple Market for free. Click on **Get Books**, then Add a Library. Search for Grapevine Public Library. Once you check out a book, it will ask you for your library card number and PIN (the last four digits of your home phone).
- The Overdrive app is now available in the Amazon and B&N App Store. You can download the app to your device, and check out books through the app.
